PRIVATE SECRETARY'S OFFICE.

NOTIFICATION.

No. 1.—In connexion with the selection of Indian candidates for admission to the Royal Military College, Sandhurst, with a view to their qualifying for King's Commissions in the Indian Army, it is proposed to hold an entrance examination in Simla on the 25th May 1925, for the term commencing at Sandhurst in September 1925. There will also be nominations of Indian Cadets to King's Indian Cadetships. The following information is published for the use of intending candidates.—

(1) Candidates must be between the ages of 18 and 19 on the 1st July 1925 and must state their age *definitely*.

(2) Candidates are required to furnish a declaration which must be signed by their parents or guardians, to the effect that it is their intention to make the Army their permanent profession.

(3) Candidates must be prepared to pass a qualifying examination the detailed syllabus of which is printed as an appendix to this notification. The general educational standard required is that prescribed for the diploma of the Chief's Colleges, a school-leaving certificate recognised by a Local Government, the Matriculation examination of an incorporated University or any higher examination.

(4) Candidates will, in addition, undergo a special oral test which will be conducted by a Board of Officers convened under the orders of His Excellency the Commander-in-Chief. This test is to enable the Board to form an opinion as to the candidate's general character from the point of view of his suitability as an army officer.

(5) A medical examination, according to the standard laid down in Appendix 18 of the *Regulations for the Army Medical Service, 1908*, will also be held in Simla. Candidates should attach to their applications a *medical certificate* from a *competent medical officer* to the effect that they come up to the standard mentioned above, *and a vaccination certificate*.

(6) Subject to the restrictions specified below, free passage will be admissible on the following occasions:—

(i) to selected candidates attending the medical and qualifying examinations in India from their homes and back;

(ii) when nominated to join the Royal Military College, Sandhurst, from their residence to Great Britain.

The amount admissible on account of railway, river and sea journeys within Indian limits will be restricted to one first class fare for each candidate. The amount admissible for road journeys will be restricted to the mileage rate of first class civil officers when travelling on duty.

Applications for railway fares should be made to the Private Secretary to His Excellency the Governor of Madras. Passages by sea from India to the United Kingdom will be arranged by the Embarkation Commandant, Bombay, under orders from Army Headquarters.

(7) Unless a Government building is available, candidates will be provided with private accommodation usually in a hotel at Simla. Candidates will be charged for messing, but the cost of the rent of the quarters will be borne by Government. Suitable arrangements will be made for those candidates who are precluded, by caste, from eating the food provided.

Candidates may arrange for quarters in the hotel other than those provided, but they will be liable for any additional cost incurred. Candidates will on no account be allowed to live elsewhere.

Parents or guardians must ensure that candidates are provided with sufficient funds to meet the cost of their expenses while in Simla.

In no circumstances will candidates or their parents, guardians, relatives, or friends, be permitted to interview any officer of the Army Headquarters Staff, other than the officer detailed for the purpose, or any other person connected with the examination or selection of candidates. An attempt to do so is liable to entail the disqualification of the candidate.

(8) Selected candidates will be sent to England in charge of a British officer, who will be appointed by Army Headquarters, and who will meet the candidates at Bombay. Each candidate will hand over to this officer at Bombay the sum of Rs. 300 to cover the cost of expenses incurred during the voyage to England.

(9) The ordinary fees for cadets at the Royal Military College, Sandhurst, for eighteen months are as follows :—

(a) For a King's India Cadet—as may be arranged by the Secretary of State for India in Council.

	£ Per annum.
For the son of—	
(*b*) A private gentleman	200
(*c*) An officer or soldier who has died whilst on full pay, half pay, retired pay or pension, and whose family has been left in pecuniary distress (subject to the approval of the Secretary of State for India).	20
(*d*) A deceased officer of whatever rank, whose widow is, or would have been, if living, eligible for pension.	—
(*e*) A soldier who is serving, or who died while serving, with the colours, or who was discharged either on account of ill-health caused by the service, or after at least twenty years' colour service.	55
(*f*) An officer who is (or, if deceased, was at the time of his death) on the active list holding rank below the substantive rank (as regards combatant, medical, dental and veterinary officers) or the rank (as regards officers holding honorary King's Commissions as Lieutenants and Captains) of Lieutenant-Colonel in the Indian Army.	55
A retired officer who last served in a rank below the abovementioned ranks, and retired with not less than twenty years' service or on account of age, non-employment, or ill health caused by the service, or on reduction of establishment.	55
(*g*) An officer who is (or, if deceased, was at the time of his death) on the active list holding the substantive rank (as regards combatant, medical, dental and veterinary officers) or the rank (as regards officers holding honorary King's Commissions as Lieutenants or Captains) of Lieutenant-Colonel or Colonel in the Indian Army.	80
A retired officer who last served in any of the above ranks and retired as stated in (*f*).	80
(*h*) A serving or retired officer not otherwise specially provided for.	200

If the father of a cadet is promoted, or retires, the rate of contribution will be altered accordingly.

The reduced rates of fees laid down for the sons of officers do not apply to stepsons whether wholly or partially dependent on stepfathers. The stepson of an officer can only be admitted at a reduced rate when the services rendered by *his father* qualify for a reduction.

The above fees are exclusive of contingent expenses, sundries, etc., which are as follows :—

	£
Contingent account for four terms ..	100
Pocket money at £8 per mensem ..	72
Thirty weeks' vacation at about £5 5*s.* a week	157
Extra pocket money during vacation at £3 3*s.* a week	95
Sundries, say	136
Total ..	560

(10) The sum for sundries includes additional expenses during the vacation, such as travelling and entertainments. The expenses of cadets will as far as possible be kept within the above limits, but the parents or guardians of cadets must be prepared to pay any excess over these amounts.

(11) The above estimate does not provide for European kit on arrival in England other than the amount required for college uniform ; for the purchase of European kit an additional sum of from £100 to £200 should be provided. Neither does this estimate include anything for the cost of outfit on being commissioned from the college.

(12) An allowance of 4*s.* a day, in aid of the expenses of messing, washing, and other contingencies, will be admitted as a charge against the public for each cadet so long as he is in residence at the Royal Military College. All other necessary expenses which cannot be covered by this allowance shall be chargeable to the parent or guardian of a cadet.

(13) If a cadet is absent a whole term in consequence of rustication, a payment of £10 shall be required in lieu of the term's contribution for the privilege of his name being kept on the rolls of the establishment, and for a vacancy being kept open at the commencement of the next term.

(14) If a cadet is rusticated or removed during a term, his daily allowance shall cease from the date of such rustication or removal, and the contribution made for the term shall be forfeited, unless otherwise specially decided by the Army Council.

(15) If a cadet is absent from sickness during a portion of the term, his allowance shall continue to be issued and credited to his account. In exceptional cases a refund of the contribution for the period of absence may be authorized by the Commandant, and in such cases the cadet's allowance shall cease for the period of the refund.

(16) Parents or guardians of candidates are informed that the sums due on behalf of cadets at the college are to be paid punctually in advance at the beginning of each year of the course and that no cadet will be allowed to pursue a term until the fees for that term have been paid.

(17) The normal length of the course of instruction will be about eighteen months divided into three terms. The College terms will be—

Spring term.—From about beginning of February to about middle of July.

Autumn term.—From about beginning of September to middle of December.

The intermediate periods will constitute the vacations.

(18) *For King's India Cadetship*—

(1) A candidate shall not be eligible for nomination if he be under 17 or over 19½ (the half year being reckoned by calendar months) years of age on the first of June for nomination in the previous spring and on the first of December for nomination in the previous autumn. No exception of any sort shall be made in these limits of age as laid down by the War Office.

(2) If a candidate has already been certified by the Civil Service Commissioners as qualified for admission to the Royal Military College, he shall be

eligible for nomination so long as he is within the prescribed limits of age.

(3) A candidate shall not be eligible for nomination to a King's India Cadetship unless his father is, or has been, one of the following :—

A military officer, with commissioned rank.

A military officer, with honorary commissioned rank.

A civil officer, of any of the Indian Services, who is included among the persons named in the Royal Warrant of Precedence in India or whose appointment is included in the "Supplementary graded list of civil offices not reserved for members of the Covenanted Civil Service".

A civil officer of any of the Indian Services holding an appointment not included in the above-mentioned supplementary graded list, whose comparative rank is decided by the Secretary of State for India in Council to be not inferior to that of an honorary commissioned officer.

(4) King's India Cadets will be required, before admission to the College, to qualify at the entrance examination at Simla (i.e., obtain not less than 50 per cent in each obligatory subject, and a total of 500 marks in the aggregate for the whole examination—vide paragraph 4 of Appendix *infra*) and to furnish satisfactory evidence that they are eligible with regard to age and character.

(5) The relative claims of eligible candidates shall be decided by means of a scale of marks approved for the purpose by the Secretary of State in Council, the candidates being ranked according to the aggregate number of marks assigned to them respectively under the several heads of claim.

(6) The claims of sons of officers who have been dismissed the service or cashiered or compulsorily retired for drunkenness or misconduct shall be assigned no marks, but the applications shall be simply recorded.

(7) The claims of sons of officers of the British Service (except officers of Royal Artillery who have been selected for continuous Indian Service and of Royal Engineers who have elected for continuous Indian Service or have completed 20 years' service for Indian pension) shall be placed for consideration after those of the sons of officers of the Indian Services.

(8) The heads of claim shall be the following :—

Length of service of the father.

Honorary distinctions of the father.

Orphanhood.

Distinguished services of the father or other special circumstances not otherwise adequately recognized under these regulations.

(9) In calculating the length of service of the father, two years' service in the ranks shall be taken as equal to one year's commissioned service.

(10) Marks shall also be assigned—

(i) For father having been killed in action, or having died of wounds received in action within twelve months after having been wounded.

(ii) For a brother who received a King's India or Honorary King's India Cadetship having been killed in action or having died of wounds (as above).

(iii) For father having died of illness directly due to fatigue, privation, or exposure incident to active operations in the field, or in consequence of wounds or injuries received in the performance of duty, otherwise than in action.

(iv) For father having died while actively employed.

(v) For father having died otherwise.

(vi) For mother also being dead, the mark being additional to those for death of father. (No mark for death of mother if father is alive).

(11) In every case where a brother of a candidate has received a King's India Cadetship, a mark shall be deducted from those to which the candidate is otherwise entitled. In every case in which two or more brothers have received such cadetships, further marks shall be deducted. But if a brother who received a King's India or Honorary King's India Cadetship has died while actively employed, there shall be no deduction of marks.

(12) Subject to the two following regulations, candidates shall be placed on the list for selection in order of age in their respective groups of figures.

Candidates (including orphans) whose brothers have received cadetships shall be placed on the list for selection at the foot of their respective groups of figures.

Orphans shall (subject to the above exception) be placed on the list for selection at the head of their respective groups of figures.

When the claims of two or more candidates are marked equally, and are not differentiated by the provisions of clauses 2 and 3 of this paragraph, and when the candidates are so nearly of the same age as to have before them an equal number of trials for admission to Sandhurst, preference shall be given to those who qualify highest on the examination list.

(13) King's India Cadets may be exempted from paying the following sums towards covering the expense of uniform, books, library, recreation, etc. (included in the contributions referred to in paragraph 7) if so decided by the India Office :—

	£
On joining the College ..	65
Commencement of second term ..	25
Commencement of third term ..	10

(14) The expenses of King's India Cadets at the Royal Military College shall not be payable by the State except in cases where, after due inquiry, the pecuniary circumstances of the cadets are ascertained to be such as to justify the payment.

(15) Indians selected for cadetships will be subject to such rules and regulations as are, or may be, from time to time, established for the maintenance of good order and discipline at the College.

They will, while at the Royal Military College, belong to the ordinary College Mess and no special messing arrangements can be made on their behalf.

Indian cadets are required to appear at all times in the uniform of the College except when on leave or when otherwise excepted by the Commandant, but they will be allowed to wear their national head dress should they so desire.

They will not be allowed to take servants or personal attendance of any kind to the College.

(20) One of the rules for admission to the Royal Military College is that a cadet should be unmarried. This rule will be waived in the case of Indian candidates, but in no circumstances will a cadet be allowed to take his wife or family to England.

(21) Cadets from India will have to qualify in the ordinary passing out examination and will, on qualifying, be eligible for King's Commissions. Before being passed as fit for a commission, they must be certified to be in good mental and bodily health and free from any physical defects likely to interfere with the performance of their military duties. Those who are successful in obtaining commissions will enter the Indian Army as Second Lieutenants.

The appointment of gentlemen cadets, after passing out of the Royal Military College, to particular regiments of cavalry and infantry, is governed by the existence of vacancies and the requirements of the service. Subject to these conditions, appointments will be made on the following principles :—

(i) The first consideration will be given to those cadets who pass out highest on the list of successful candidates from the Royal Military College, but the Government of India reserve the right to consider special family or territorial claims irrespective of the candidate's position on the list.

(ii) A cadet having any special family or territorial connexion with a regiment should describe this connexion on the preference form which he will

be required to fill in during his last term at the College, and careful consideration will be given to such claims in deciding the question of his appointment.

(iii) Candidates without special claims are at liberty to apply for particular regiments (not exceeding three).

(iv) In making first appointments the candidates' wishes, as stated on the preference form, will be met as far as practicable, having due regard to the preceding paragraphs.

There is no objection to a Colonel of a regiment submitting a recommendation to Army Headquarters, India, on behalf of a cadet whom he may desire to be appointed to his regiment.

(22) Intending candidates should submit their applications in the form below :—

26. Of all the straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

27. The opposite sides and angles of a parallelogram are equal, each diagonal bisects the parallelogram, and the diagonals bisect one another.

28. If there are three or more parallel straight lines, and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

AREAS.

29. Parallelograms on the same or equal bases and of the same altitude are equal in area.

30. Triangles on the same or equal bases and of the same altitude are equal in area.

31. Equal triangles on the same or equal bases are of the same altitude.

32. Illustrations and explanations of the geometrical theorems corresponding to the following algebraical identities :—

$k(a+b+c+\ldots)=ka+kb+kc+\ldots$,

$(a+b)^2=a^2+2ab+b^2$,

$(a-b^2)=a^2-2ab+b^2$,

$a^2-b^2=(a+b)(a-b)$.

33. The square on a side of a triangle is greater than, equal to, or less than, the sum of the squares on the other two sides, according as the angle contained by these sides is obtuse, right, or acute. The difference in the cases of incognality is twice the rectangle contained by one of the two sides and the projection on it of the other.

Loci.

34. The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the two fixed points.

35. The locus of a point which is equidistant from two intersecting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

THE CIRCLE.

36. A straight line, drawn from the centre of a circle to bisect a chord which is not a diameter, is at right angles to the chord; conversely, the perpendicular to a chord from the centre bisects the chord.

* 37. There is one circle, and one only, which passes through three given points not in a straight line.

* 38. In equal circles (or, in the same circle) (i) if two arcs subtend equal angles at the centres they are equal; (ii) conversely, if two arcs are equal, they subtend equal angles at the centres.

* 39. In equal circles (or, in the same circle) (i) if two chords are equal they cut off equal arcs; (ii) conversely, if two arcs are equal, the chords of the arcs are equal.

40. Equal chords of a circle are equidistant from the centres, and the converse.

[Section IV.]

THE CIRCLE.

41. The tangent at any point of a circle and the radius through the point are perpendicular to one another.

42. If two circles touch, the point of contact lies on the straight line through the centres.

43. The angle which an arc of a circle subtends at the centre is double that which it subtends at any point on the remaining part of the circumference.

44. Angles in the same segment of a circle are equal; and if the line joining two points subtends equal angles at two other points on the same side of it, the four points lie in a circle.

45. The angle in a semi-circle is a right angle; the angle in a segment greater than a semi-circle is less than a right angle; and the angle in a segment less than a semi-circle is greater than a right angle.

46. The opposite angles of any quadrilateral inscribed in a circle are supplementary; and the converse.

47. If a straight line touch a circle, and from the point of contact a chord be drawn, the angles which this chord makes with the tangent are equal to the angles in the alternate segments.

48. If two chords of a circle intersect either inside or outside the circle, the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other.

[Section V.]

PROPORTION: SIMILAR TRIANGLES.

49. If a straight line is drawn parallel to one side of a triangle the other two sides are divided proportionally; and the converse.

50. If two triangles are equiangular, their corresponding sides are proportional; and the converse.

51. If two triangles have one angle of the one equal to one angle of the other and the sides about these equal angles proportional, the triangles are similar.

52. The internal bisector of an angle of a triangle divides the opposite side internally in the ratio of the sides containing the angle, and likewise the exterior bisector externally.

53. The ratio of the areas of similar triangles is equal to the ratio of the squares on corresponding sides.

No 47.—The following resolution of the Government of India is republished :—

FINANCE DEPARTMENT.

Delhi, the 4th February 1925.

No. F. 20 (2)-C.S.R.-25.—The Secretary of State in Council has been pleased to make certain changes to the Study Leave Rules prescribed by him in Council with reference to Fundamental Rule 84 and published with the Resolution by the Government of India in the Finance Department, No. 1693-C.S.R., dated 25th September 1923. The rules as amended are published as an annexure to this Resolution.

2. The Secretary of State has also decided that extraordinary leave may be taken in conjunction with study leave without regard to the maximum prescribed in rule 2 of the Study Leave Rules.

ANNEXURE.

Rules for the grant of additional leave to Government servants for the Study of Scientific, Technical or Similar Problems, or in order to undertake special Courses of Instruction.

The following rules relate to study leave only. They are not intended to meet the case of Government servants deputed to other countries at the instance of Government, either for the performance of special duties imposed on them or for the investigation of specific problems connected with their technical duties. Such cases will continue to be dealt with on their merits under the provisions of Rules 50 and 51 of the Fundamental Rules. The rules apply to the Archæological Department, the Public Health and Medical Research Departments (other than as regards officers of the Indian Medical Service, to whom special rules apply), the Botanical Survey (including the officers of the Royal Botanic Garden, Calcutta), the Civil Veterinary Department, the Factory Department, the Geological Survey, the Agricultural Department, the Meteorological Department, the Railway Department (Traffic, Locomotive and Engineering Branches), the Telegraph Department, the Zoological Survey, the Education Department, the Public Works Department and the Forest Department (except in respect of continental tours, to which special rules apply). The rules also apply to Government servants selected for the Judicial Branch of the Indian Civil Service who are admitted to the benefit of the rules for the assistance of Government servants prosecuting legal studies at one of the Inns of Court, London or the King's Inns, Dublin, for the period when they are reading in the Chambers of a practising Barrister in England, but in their case study leave should not ordinarily be granted after the twelfth year of service. The rules may be extended by the authorities empowered to sanction study leave under rule 1 to any Government servant, including a Government servant of a Provincial Service, not belonging to any of the departments mentioned above, in whose case the sanctioning authority is of opinion that leave should be granted in the public interests to pursue a special course of study or investigation of a scientific or technical nature.

NOTE.—The extension of these rules to the Public Works and Railway Departments does not affect the existing rules under which Government servants are allowed to visit engineering works when on leave in Great Britain.

1. Extra leave on half average pay for the purpose of study leave may be taken either in or outside India. It may be granted to a Government servant of any of the departments named above by the Local Government or Chief Commissioner under whom he is serving, provided that when a Government servant borne permanently on the cadre of one province or department is serving temporarily in another province or department the grant of leave is

subject to the conditions (a) that the sanctioning authority can make local arrangements to carry on his work in his absence, and (b) that the sanction of the province or department in which he is permanently attached is obtained before leave is given. Study leave should not ordinarily be granted to Government servants of less than five years' service or to Government servants within three years of the date at which they have the option of retiring, or, if they have the option of retiring after 20 years' service, within three years of the date at which they will complete 25 years' service. Nor should it be granted to Government servants who are about to retire on proportionate pension.

NOTE—Departments of the Government of India may grant study leave to Government servants under their administrative control, subject to the restrictions which apply to the powers of a local Government.

2. The grant of study leave should be made with due regard to the exigencies of the public service. In no case should the grant of this leave, in combination with ordinary leave otherwise than on medical certificate, involve an absence of over 28 months from a Government servant's regular duties, or exceed two years in the whole period of a Government servant's service; nor should it be granted with such frequency as to remove him from contact with his regular work or to cause cadre difficulties owing to his absence on leave. A period of 12 months at one time should ordinarily be regarded as a suitable maximum, and should not be exceeded save for exceptional reasons.

3. A Government servant whose study leave is combined with any other kind of leave should be required to take his period of study leave at such a time as to retain, at its conclusion, a balance of other previously sanctioned leave sufficient to cover the period spent in returning to duty.

4. When a Government servant has been granted a definite period of study leave and finds subsequently that his course of study will fall short of the sanctioned period to any considerable extent, his absence from duty should be reduced by the excess period of study leave unless he produces the assent of the sanctioning authority in India to his taking it as ordinary leave.

5. Except as provided in rule 6, all applications for study leave should be submitted with the audit officer's certificate to the Head of the Department through the prescribed channel, and the course or courses of study contemplated and any examination which the candidate proposes to undergo should be clearly specified therein.

6. Government servants on leave in Europe or America, who wish to have part of it converted into study leave, should address the High Commissioner for India and should attach (1) a statement showing how they propose to spend the study leave, and (2) documentary evidence that their application for the particular course of study or examination proposed has the approval of the proper authorities in India. Similarly, Government servants on leave in Europe or America who desire to have it extended for purposes of study, should address the High Commissioner, but in addition to the above requirements they must support their applications with documentary evidence of their having obtained the approval of the authorities concerned in India to their applying for an extension of leave.

7. A study allowance will be granted for the period spent in prosecuting a definite course of study at a recognized institution or in any definite tour of inspection of any special class of work, as well as for the period covered by any examination at the end of the course of study. The rates as at present fixed are 12s. a day in the United Kingdom, 1*l.* a day on the continent of Europe, and 30s. a day in the United States of America. These rates are liable to revision. The rate to be granted to Government servants who take study leave in other countries, including India, will be specially considered by the High Commissioner or the Government of India, as the case may be, in each case. In no case will subsistence allowance be granted in addition to study allowance and ordinarily travelling expenses will not be paid, but in exceptional cases claims will be considered on their merits by the Government of India or High Commissioner.

8. Study allowance will be admissible up to 14 days for any period of vacation. A period during which a Government servant interrupts his course for his own convenience cannot be considered as vacation. In the case of a Government servant retiring from the service without returning to duty after a period of study leave the study allowance will be forfeited. If the Government servant is under civil leave rules the study leave will be converted into ordinary leave to the extent of the ordinary leave standing to his credit at the date of retirement. Any balance of the period of study leave mentioned above which cannot be so converted will be excluded in reckoning service for pension.

9. Government servants granted study leave are ordinarily required to meet the cost of fees paid for courses of study. In exceptional cases the High Commissioner or the Government of India, as the case may be, will be prepared to consider proposals that such fees should be paid by Government.

10. On completion of a course of study a certificate on the proper form (which may be obtained from the High Commissioner), together with certificates of examinations passed or of special study, shall, when the study leave has been taken in Europe or America, be forwarded to the High Commissioner. When the study leave has been taken in any other country certificates of examinations passed or of special study, which should show the dates of commencement and termination of the course, with any remarks by the instructor, shall be forwarded to the authority which sanctioned the leave. In the case of a definite course of study at a recognized institution the study allowance will be payable by the High Commissioner or in India, as the case may be, on claims submitted by the Government servant from time to time, supported by proper certificates of attendance. When the programme of study approved under rule 5 does not include or does not consist entirely of such a course of study, the Government servant shall submit to the High Commissioner or to the authority in India which sanctioned his leave, as the case may be, a diary showing how his time has been spent, and a report indicating fully the nature of the methods and operations which have been studied, and including suggestions as to the possibility of applying such methods or operations to India. The High Commissioner or the sanctioning authority in India, as the case may be, will decide whether the diary and report show that the time of the Government servant has been properly employed, and will determine accordingly for what period the study allowance referred to in rule 7 may be granted.

11. Study leave will count as service for promotion and pension, but not for leave. It will not affect any leave which may already be due to a Government servant; it will count as extra leave on half average pay and will not be taken into account in reckoning the aggregate amount of leave on half average pay taken by the Government servant towards the maximum period admissible under the Fundamental Rules.

12. During study leave a Government servant will draw half average pay as defined in Rule 9 (2) of the Fundamental Rules, subject to the maximum and minima laid down in rules 89 and 90, *ibid.* The rate of exchange prescribed by the Secretary of State in Council for the conversion of leave salary (other

than that admissible during the first four months of a period of leave on average pay) shall apply to study leave allowances. A Government servant may, subject to the approval of the proper authorities being obtained as required by rules 5 or 6, undertake or commence a course of study during leave on average pay, and, subject to paragraphs 7 and 8, draw study allowance in respect thereof, provided that study allowance is not drawn for an aggregate period exceeding two years during the whole of a Government servant's service. This rule applies to military officers in civil employment taking leave under the Fundamental Rules.

13. On an application for study leave in Europe or America being sanctioned by the Government of Madras, Bombay or Bengal, the local Government should inform the High Commissioner of the particulars of the case. When such leave is sanctioned by any other local Government or Administration a report should be made to the Government of India, who will inform the High Commissioner. It will be necessary for the Government servant concerned to place himself in communication with the High Commissioner, who will arrange any details and issue any letters of introduction that may be required. In all cases in which study leave in any other country is sanctioned the particulars should be reported to the Government of India.

JUDICIAL.

No. 1680.—In the matter of the Charitable Endowments Act VI of 1890 and in the matter of the Silver Wedding Fund,

Whereas the Fund known as the Silver Wedding Fund (hereinafter called the said Fund) subscribed as an offering to Her Majesty the Queen-Empress as a token of loyalty and affection on the occasion of the 25th Anniversary of their Imperial Majesties' Wedding was at the request of Her Majesty vested in the Treasurer of Charitable Endowments for the Punjab (by Notification No. 3152 published in Part I of the *Gazette of India*, dated the 25th October 1919) for the purposes therein mentioned.

And whereas by Notification No. 965 published in Part I of the *Gazette of India*, dated the 2nd August 1924, the said Fund as it then existed was transferred to the Treasurer of Charitable Endowments for Bengal for the purposes aforesaid.

And it was ordered and decreed that the defendants the Administrators of the said Fund give effect to the objects of the said trust in the manner hereinbefore declared and apply the said Fund towards assisting those who come under the said objects as extended by the said decree and the Administrators of the Fund have accordingly applied to the Governor-General in Council to amend the said Notifications Nos. 3152 and 965.

And whereas the said Fund now comprises the securities and cash specified in Schedule 'A'.

Now in pursuance and exercise of the powers conferred by and by virtue of sections 4 and 7 of the Charitable Endowments Act, 1890, and any other powers thereto enabling, in supersession of the said Notification No. 3152, dated the 25th October 1919 and Notification No. 965, dated 2nd August 1924, *it is hereby ordered* by the Governor General in Council that the said Fund, which is now vested in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal under Notification No. 965, dated the 2nd August 1924, on the terms therein mentioned shall now be vested upon the following terms, that is to say, that the said Fund and the income thereof shall be devoted to and applied for the education and assistance of children and dependents of Indian officers and soldiers (including non combatants) who rendered military service under the Crown during the Great War or who took part or may hereafter take part in subsequent warlike operations, in accordance with the Scheme settled by the Governor-General in Council on the application of the Administrators under powers conferred by sections 5 and 7 of the said Charitable Endowments Act, a copy of which is set forth in Schedule 'B' hereto.

Notice is hereby given that the Superintendent will hold an auction at the Nellore Sub-Jail on 18th March 1925 at 8 a.m., for the supply of the following articles of rations during the year 1925–26. Intending bidders are requested to be punctual. In the case of suppliers who may be unable to attend the auction sealed tenders will be accepted provided they reach the Superintendent on or before the day and hour mentioned above and are accompanied by the earnest money of Rs. 50. Tenders which will only be received on printed forms to be had free of cost

on application should be superscribed "Tender for the supply of rations and miscellaneous articles to the Nellore Sub-Jail, Nellore." They will be opened at the time of auction and the offered rates considered along with the bids. The rates should be quoted in pounds and ounces per rupee for delivery at the Nellore Sub-Jail, Nellore, the quantities being specified in words as well as in figures. Samples of the articles required can be seen at the auction. Suppliers may bid or tender for all or any one of the articles mentioned in the schedule on depositing the requisite earnest money. All supplies must be up to the samples accepted by them or approved by the Superintendent.

2. The successful bidders or tenderers will be required to enter into stamped agreements with the Jail within seven days from the date of receipt of information by them that their rates have been accepted. In addition, they should before signing such agreements deposit a security of ten per cent of the total value of the supplies undertaken. (With the approval of the Inspector-General of Prisons, the total amount may be reduced in the case of approved contractors.) Failing compliance within the time specified, the earnest money may be confiscated and in the event of withdrawal they will also be liable to pay any difference between the prices accepted and those ultimately obtained by the Jail. The earnest money received from successful bidders or tenderers will be taken towards their security deposits and those from others returned at the close of the auction.

3. The Superintendent reserves the right to accept or reject any bid or tender without assigning any reason.

4. Contracts should not be sublet.

5. Any rates accepted and contracts entered into will be subject to confirmation by the Inspector-General of Prisons, Ootacamund, whose decision shall also be final in all questions of infringement.

6. As the quantities given against each article in the schedule are only approximate the contractors will be under obligation to supply the entire requirements during the period of contract, plus so much as may be needed to last for the whole month thereafter, provided in respect of the extra quantities that written orders are given within a fortnight of the termination of the agreement. At the same time, the Superintendent does not bind himself to receive the quantities or numbers noted in the schedule if they are not required.

7. No article is to be supplied to the Jail except on a requisition signed by the Superintendent or some responsible person authorized by him in writing to do so 'by order'.

8. No advances of cash will on any account be made to the contractors when giving orders, nor will the Jail pay freight or other charges on consignments to be afterwards deducted from bills, but payment for articles delivered at the Jail on order will be made promptly after they have been inspected and passed. Contractors must submit to receive payment of their bills in whole rupees to which end annas forming part of the sums due on each bill will be disregarded, unless they constitute a fraction equivalent to half rupee or more when they will be treated as a whole rupee for the purpose of the account.

9. During the prevalence of plague in the vicinity of the Jail or in that of the areas from which supplies are drawn, all grain, etc., will be liable to be first exposed to the sun outside before being taken in; also if for any other reason the Superintendent considers exposition of articles to sun, necessary.

10. Contractors are required (under a penalty not exceeding Rs.25) to invariably send with each supply, a memorandum or advice note, duly signed, showing the number or quantity tendered for acceptance. Also to sign and return within a week of payment by cheque, cash order or remittance transfer receipts all connected bills forwarded by the Superintendent for the purpose. Questions in connexion with any supposed short payment may be referred to the Superintendent separately, but are not to be made an excuse for delay or refusal to sign.

11. In addition to any difference in prices they may be recoverable from the contractors on account of purchase rendered necessary elsewhere by failure, neglect or refusal on their part to supply according to the terms of their agreements, a fine not exceeding Rs. 50 may be levied at the discretion of the Superintendent for each and every such case of default. For repeated infringement of the stipulations of the contract or for other justifiable reasons, he may also annul it recovering all losses sustainable by the Jail in consequence of the annulment from the security deposited by the contractors, or other monies due to them, and, in the event of any residue, by legal measures, if so advised.

12. All wastage found to occur in excess of the respective percentages prescribed in the schedule will have to be made good by the contractors.

13. Further information on any point concerning the notification can be had from the Jail Office.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of State on the 17th February 1925 :—

No. 1 of 1925.

A Bill further to amend the Indian Ports Act, 1908.

WHEREAS it is expedient further to amend the Indian Ports Act, 1908, for the purpose hereinafter appearing; It is hereby enacted as follows :— XV of 1908.

1. This Act may be called the Indian Ports (Amendment) Act, 1925. Short title.

2. In sub-section (*1*) of section 6 of the Indian Ports Act, 1908, after clause (*ee*), the following clause shall be added, namely :— XV of 1908. Amendment of section 6, Act XV of 1908.

"(*ee*) for regulating the bunkering of vessels with liquid fuel in any such port and the description of barges, pipe lines or tank vehicles to be employed in such bunkering;"

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to enable the Local Government to issue rules under the Indian Ports Act regulating the bunkering of vessels with liquid fuel within port limits and the description of barges, pipe lines and tank vessels to be employed in any such bunkering.

2. The Indian Ports Act was passed in 1908 at a time when liquid fuel was hardly ever used for marine purposes. Consequently there is no provision in that Act empowering Local Governments to frame rules for regulating the conditions on which such bunkering can be allowed within port limits. The need for such rules has been experienced at Bombay. The number of vessels using liquid fuel which visit the port has increased, and occasions arise when bunkering with liquid fuel must be permitted from barges or from vehicles on the dock side. It is desired, in the interests of the general safety of the port, to give Local Governments power to issue rules regulating such bunkering.

DELHI,
The 3rd February 1925.

D. T. CHADWICK.

The following Bill was introduced in the Legislative Assembly on the 16th February 1925 :—

No. 19 OF 1925.

A Bill to amend the Prisons Act, 1894.

WHEREAS it is expedient to amend the Prisons Act, 1894, for the purposes hereinafter appearing ; It is hereby enacted as follows :— X of 1894.

Short title.

1. This Act may be called the Prisons (Amendment) Act, 1925.

Amendment of section 46, Act IX of 1894.

2. In section 46 of the Prisons Act, 1894 (hereinafter referred to as the said Act),— IX of 1894.

(*a*) to clause (*c*) after the word "form" the following words shall be added, namely :—

"for such period as may be prescribed by rules made by the Governor-General in Council";

(*b*) in clause (*d*) for the word "six" the word "three" shall be substituted ;

(*c*) clause (*ii*) is hereby repealed ;

(*d*) in clause (*iii*) for the word "solitary" the word "cellular" shall be substituted ; and

(*e*) clauses (*iii*) and (*iv*) shall be re-numbered, respectively, clauses (*ii*) and (*iii*).

Amendment of section 47, Act IX of 1894.

3. (*1*) Section 47 of the said Act shall be re-numbered sub-section (*1*) of section 47.

(*2*) In the said sub-section—

(*a*) in exception (*2*) for the word "solitary" the word "cellular" shall be substituted ;

(*b*) for exception (*3*) the following exception shall be substituted, namely :—

"(*3*) cellular confinement shall not be combined with separate confinement so as to prolong the total period of seclusion to which the prisoner shall be liable ;"

(*c*) after exception (*d*) the following exception shall be added, namely:—

"(*5*) No punishment shall be combined with any other punishment in contravention of rules made by the Governor-General in Council."

(*3*) To the said sub-section the following sub-section shall be added, namely:—

"(*g*) No punishment shall be awarded for any such offence so as to combine, with the punishment awarded for any other such offence, two of the punishments which may not be awarded in combination for any such offence."

STATEMENT OF OBJECTS AND REASONS.

The Indian Jails Committee in discussing the question of prison discipline (*vide* Chapter X of their Report) recommended reforms in the following directions as regards prison offences and punishments:—

(1) that the maximum period of separate confinement should be reduced from six to three months;

(2) that solitary confinement should be abolished as a jail punishment;

(3) that change of labour as a punishment should be restricted to a stated period; and

(4) that the following additions should be made to the exceptions to the combination of punishments enumerated in section 47 of the Prisons Act, 1894 (IX of 1894):—

(*a*) penal diet in combination with standing handcuffs;

(*b*) cross-bar fetters in combination with standing handcuffs or with bar fetters;

(*c*) award, in combination for separate offences, of punishments which may not be combined in the case of a single offence.

2. These recommendations have been accepted and effect given to them by Government, and the Bill is intended to make certain consequential amendments which are required in the Prisons Act. These amendments are confined to sections 46 and 47 of the Act and require no detailed explanation.

13. In Schedule V to the said Act, in the entry in the second column against section 176 for the words "Commanding Officer of cantonment" the words "Officer Commanding the station" shall be substituted. Substitution of title "Officer Commanding the station."

14. In the said Act for the words "Commanding Officer of the cantonment", wherever they occur, the words "Officer Commanding the station" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The purpose of the Bill is to remove certain minor defects which have come to light in the first year's working of the Cantonments Act, 1924. The nature of each proposed amendment is briefly explained below:—

Clause 2 (a) and clause 9.—These amendments are necessary to bring the wording of the Act into line with the revised designation of the service.

Clause 2 (b).—It does not appear to be necessary to require the previous sanction of the Governor General in Council in these cases.

Clause 3.—The object of the proposed amendment is to make it clear that the nomination of military officers to a Cantonment Board should be by name. The word "appointment" in section 14 (*1*) (*f*) is not correctly used as no appointment is made of *ex officio* members. The use of the word in section 14 (*2*) is further unnecessary.

Clause 4.—It was intended that "a Magistrate of the first class" referred to in section 14 (*1*) (*b*) should be either an honorary or a stipendiary Magistrate, and that a stipendiary Magistrate should not be qualified for election to a Cantonment Board; but under section 28 (*2*) (*c*) a stipendiary Magistrate cannot be nominated. The section has been amended to allow of the nomination but not of the election of the stipendiary Magistrate.

Clause 5.—It is considered necessary in the interest of discipline and for the proper control of cantonment servants to provide that a

cantonment servant shall be deemed to be a public servant for the purpose of the Indian Penal Code.

Clauses 6 and 12.—Cantonment Boards derive a substantial portion of their income from the management of Government lands in cantonments. But as this does not fall within the statutory powers of a Cantonment Authority as so far defined under the Act, it is now proposed to make the necessary provision.

Clause 7.—The object of this amendment is to empower the Cantonment Authority to compel the removal of ruinous buildings in cantonments by their owners. Similar provisions are contained in many municipal Acts.

Clause 8, 10, 11, 13 and 14.—General amendments.—The military officer in command of the troops in a cantonment is designated the "Officer Commanding the station," whereas the same officer is described in the Cantonments Act as the Commanding Officer of the cantonment. The object of the proposed amendments is merely to obtain uniformity in nomenclature.

The following Report of the Select Committee on the Bill further to amend the Code of Civil Procedure, 1908, for certain purposes was presented to the Legislative Assembly on the 18th February 1925 :—

We, the undersigned, members of the Select Committee to which the Bill further to amend the Code of Civil Procedure, 1908, for certain purposes, was referred, have considered the Bill and have now the honour to submit this our Report.

2. We are of opinion that the Assembly in sending the Bill to Select Committee accepted the principle of reciprocity and left it to the Committee to determine whether the Bill as drafted would ensure a fair measure of reciprocity and, if not, whether it could be so amended as to secure that result. We have examined the Bill and also Part 2 of the Administration of Justice Act, 1920 (10 and 11 Geo. V, cap. 18), and we have reached the conclusion that if the Bill were to be passed either in its present form or in any form which we could suggest the balance in favour of decree-holders in the United Kingdom over decree-holders in this country would be so considerable that the proposed measure cannot be said to provide a reasonable degree of reciprocity. This result cannot be altered by any legislation in the Indian Legislature because it flows from the restriction of the benefit of the English Statute to judgments obtained in a "superior court" in any part of His Majesty's Dominions outside the United Kingdom. The expression "superior courts" used in the Statute applies only to courts in this country which come within the definition of "High Court" contained in clause (24) of section 3 of the General Clauses Act, 1897. On the other hand, a litigant in the United Kingdom has the right to file any suit in a superior court.

3. We are of opinion that no measure which will not ensure to the judgments, if not of every court of original civil jurisdiction, at any rate to those of every court of unlimited original civil jurisdiction in this country, the status of a judgment of a superior court for the purpose of section 9 of the English Statute can be held to provide a fair measure of reciprocity and as this result cannot be effected either

by, the Bill as referred to us or by any legislation which the Indian Legislature can enact we recommend that the Assembly should not proceed further with the Bill.

4. The Bill was published in the Gazette of India, dated the 1st March 1924.

1. This Act may be called the Cantonments (House-Accommodation Amendment) Act, 1925. Short title.

2. In sub-section (*1*) of section 2 of the Cantonments (House-Accommodation) Act, 1923 (hereinafter referred to as the said Act),— of 1923 Amendment of section 2, Act VI of 1923

(*a*) in clause (*b*) for the word "Committee" the word "Board" shall be substituted;

(*b*) after clause (*b*) the following clause shall be inserted, namely :—

"(*bb*) 'Cantonment Board' means a Cantonment Board constituted under the Cantonments Act, 1924;" 1924.

(*c*) in clause (*g*) for the words "a Cantonment Magistrate" the words "an officer of the Cantonments Department" shall be substituted.

3. In section 17 and in clause (*a*) of sub-section (*1*) of section 22 of the said Act, for the words "Military Works", wherever they occur, the words "Military Engineer" shall be substituted. Amendment of sections 17 and 22, Act VI of 1923

4. In section 34 of the said Act, for the words "under the Cantonments Act, 1910, or any rule made thereunder" the following shall be substituted, namely :— Amendment of section 34, Act VI of 1923.

"in accordance with a bye-law made under clause (*59*) of section 282 of the Cantonments Act, 1924"

5. In section 37 of the said Act, for the word "Committee" the word "Board" shall be substituted. Amendment of section 37, Act VI of 1923.

6. For the words "Commanding Officer of the Cantonment" wherever they occur in the said Act, the words "Officer Commanding the station" shall be substituted. Substitution of the "Officer Commanding the station."

STATEMENT OF OBJECTS AND REASONS.

With the passing of the Cantonments Act, 1924 (II of 1924), it has become necessary to make certain consequential changes in the Cantonments (House-Accommodation) Act, 1923 (VI of 1923). The object of this Bill is to provide for these changes and also to provide for a change in the official nomenclature of the Military Works Services which is now designated the Military Engineer Services.

2. We have considered the opinions that have been obtained on circulation of the Bill, and have decided that no change in the Bill as previously amended by the Select Committee is required so far as non-marital relations are concerned.

3. But these opinions show that there is considerable opposition to the provisions of the Bill so far as they affect marital relations. We feel that that opinion cannot be disregarded; but though we have decided to modify the Bill in this respect we feel that the Bill should register some advance and that it should indicate the unwisdom of the early consummation of marriages. We have, therefore, raised the age to 13 in respect of marital relations.

NOTES OF DISSENT.

I adhere to the opinion given by me in the Select Committee on the 8th of March 1924.

I have no objection to the age of consent being raised to 14 as far as unmarried girls are concerned.

I agree with the Government of Bengal that there should be no legislation to raise the age of consent with the marital relations. His Excellency the Governor of Bengal in Council says "That public opinion continue to be strongly opposed to raising the age within marital relations."

We should not forget that among Hindus, marriage is a religious one, and not a contractual relation only. If a husband is to be prosecuted for cohabiting his wife between 12 and 14 the Legislature will make the life of the wife miserable.

The learned Judges of the Calcutta High Court are of opinion that the proposed legislation is opposed to Hindu Sastras.

There is another danger to this Bill, that if a girl wife becomes pregnant, the family relations will try to destroy the child to avoid

* Subject to minute of dissent.

any prosecution of the husband. There will be cases of forgeries, perjuries and corruptions if such a legislation is made.

Mr. Justice Foster of the Patna High Court considers it "Misguided and meddlesome."

I fully agree with the Hon'ble Judges of the Calcutta High Court "That the society does not want it and it is against the religious ideas of the Hindus."

16th *February* 1925. S. C. GHOSE.

I am opposed to raising the age of consent in cases of marital relationship, and interference by legislation in matters governed by religious law or usage, does not appear to me to be either advisable or desirable, and the matter may be left to parents and guardians.

I am not unmindful of the fact that for the creation of a healthier race, there is much to be said in favour of raising the age of consent even inside the marital relation. Such an improvement, however, can be effected by the people themselves, in response to their own sentiments and desire for the physical betterment of their descendants.

The tendency now-a-days is against early marriage and early consummation, and the tendency is bound to increase with the progress of education. The consummation of the marriage of a girl as soon as she has attained puberty, which in most cases in this country is before 13 years, is regarded by large classes of Hindus as a religious duty, and it would not be expedient to raise the age of consent by legislation, but should be left to the parents and guardians. Moreover, the evils of early marriage are much exaggerated and should be allowed to be removed by spread of education and social reform and not by legislation, which should be deferred until the general public opinion has advanced in favour of an appropriate change. The humanitarian reasons of health and infant mortality urged by Sir Hari Singh Gour is certainly a matter worthy of consideration, but as a matter of fact these are more due to economic and other social causes, such as poverty, want of good milk, and seclusion within purdah without any physical exercise.

Further, when the age of consent was raised from ten to twelve in 1891, the age was arrived at by the unanimous verdict of medical authorities, and it has not been proved that the verdict was wrong. The orthodox section of the Hindu community has expressed itself unanimously against the measure and considers the Bill as undue interference with their religion, and in social legislation like the present, we should not thrust a measure, however beneficial it may be, on the people who do not want it, but should leave the social reformers to do the needful. It must be remembered that among the Hindus, marriage is not a matter of contract and by penalising cohabitation with a husband, you make the life of the girl more miserable, whom you wish to protect. For if the husband is to be prosecuted and convicted for an offence of this nature, she will be cast off by the family of the husband and her fate altogether becomes doomed in this life. Last, though not the least, there is danger of the Police inquisition bringing disgrace upon respectable families.

The reasons which apply to marital relations do not apply to non-marital cases, and I shall gladly support the raising of the age of consent to 14 years to protect our girls from their seducers and

ravishers, which will check prostitution and save them from a life of shame. But on no account shall the age of consent be raised to more than 12 years against the husband, while in the case of strangers it should be raised to 14 years.

DELHI,
16th *February* 1925. AMAR NATH DUTT.

While in view of the complexities that would arise from raising the age of consent to 14 or higher in the case of married girls, and I therefore fully support the recommendation that it should be raised to 13 as decided by the majority of my colleagues, I see no reason why it should be fixed at 14 instead of at 16 if not even higher in so far as non-marital connections are concerned. I sign this report subject to this note.

DELHI,
18th *February* 1925. BIPIN CHANDRA PAL.

I am in favour of 14

M. A. JINNAH.

I would rather leave marital relationship outside the scope of this legislation.

18th *February* 1925. K. RAMA AYYANGAR.

I feel sorry I am unable to agree with the Report. I have already attached a note of dissent to the first report, before the Bill was circulated. I only have to make a few observations supplementing the note of dissent.

It may be noted that I was strongly supported by the opinions expressed on this Bill. I am very much surprised to find that so many weighty opinions carry no weight with the Select Committee. If the opinions called forth have to possess no influence and if Select Committees are determined to stand by the views once expressed, I fail to understand the propriety of any reference to the public opinion. In matters like the one forming the subject of this Bill, I am strongly of opinion that response, and full response ought to be given to the strong and almost unanimous public opinion expressed on the subject. In such matters Legislature ought to reflect public opinion. I agree that the Legislature should go a bit forward of public opinion in matters of social reform; but even for this there is some limit—so far and no further. Religious sentiments particularly ought to be respected, and if religious sentiments will suffer a shock from Legislatures formed of mixed communities, then the progress towards the reforms of Legislature will suffer. I only now appeal to the House to make a response to the popular view on this subject.

ASSEMBLY CHAMBER,
18th *February* 1925. V. N. MUTALIK.

I am doubtful whether the opinions received justify any change in the age in the case of marital relations.

18th *February* 1925 A. P. MUDDIMAN.

When the Bill was considered in the Select Committee last year, I expressed the opinion that the age of consent should be raised to 14 years in the case of strangers, but that it should be left at 12 in the case of husbands. I adhere to this opinion. The opinions that have been received strongly support it. In view of these opinions the age of consent should be left by the law where it is in the case of a husband and we must trust in such cases to social and religious reform associations to protect our young women who are married before 14 from the indisputable evil results of the consummation of marriage before they have completed at least 14 years of age.

21*st February* 1925. MADAN MOHAN MALAVIYA.

The Committee have unanimously agreed that, so far as the question relates to non-marital relations, the age of consent should be raised to 14. The majority, however, think that within marital relations the age should only be raised to 13. My Hon'ble colleagues make a distinction upon grounds which I cannot endorse. If a case for raising the age has been made out, as is indeed admitted, there should be no discrimination in favour of married couples. It is now established that the majority of girls in this country attain the age of puberty at about the age of 14. It is further clear that the age of puberty does not imply the attainment of sufficient physical development to endure the travails of maternity. The Maternity and Child Welfare workers throughout the country declare that one of the causes of the appalling mortality of infants before they are 12 months old is due to their mothers having to bear the burden of maternity before they are sufficiently developed. The effect of early consummation of marriage is to dwarf the child, debilitate the mother and deteriorate the race. It is therefore not a question of social reform, but one of humanity, and its welfare demands that the age of consent must be substantially raised.

Reference has been made to public opinion, but public opinion is always conservative, and men are apt to look at the question from their own point of view overlooking the women's point of view. If opinions were invited from the women of India, they will tell a different tale. Women doctors all over the country are of opinion that the age of consent must be substantially raised, and that it is cruel that immature girls of 13 or 14 should be subjected to cohabitation. The fact that they are married makes no difference. Those who wish to discriminate in favour of marital relations have to give reasons in support of their discrimination. The use of the phrase 'marital relation' suggests no reason, except perhaps the reason that women are the property of men and they choose to exercise their marital rights upon marriage. Some faint reference has been made that religion inculcates the consummation of marriage on puberty. I know of no such religious injunction, and if there were any religious injunction to this effect, it should be disregarded, because it is suicidal and disruptive of the best interests of humanity and as such opposed to public policy.

Girls married during their infancy were really no parties to their marriage. They did not choose their husbands. They are incapable of consenting to the sexual act because they have not yet attained sufficient maturity of understanding to appreciate the nature and consequences of their act. I am therefore of opinion

that, whether we look at the question from the broad standpoint of humanity or of the preservation of the race, or from the standpoint of the mother or of the child, no distinction should be made in favour of the husband, and if any concession is made in his favour, it must be justified upon grounds which we have still to see. Differing from my Hon'ble colleagues I am of opinion that the age of consent should be uniformly raised to 14 in all cases.

A Bill further to amend the Indian Penal Code.

The following Report of the Select Committee on the Bill to provide for the better regulation of Cotton Ginning and Cotton Pressing Factories was presented to the Legislative Assembly on the 23rd February 1925 :—

We, the undersigned, Members of the Select Committee to which the Bill to provide for the better regulation of Cotton Ginning and Cotton Pressing Factories was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto. Paper No. II. Paper No. III. Paper No. IV.

2. *Clause 2 (b).*—We have omitted the reference to cotton seeds as unnecessary.

3. *Clause 3 (1).*—It will be more convenient for the owner to maintain not a daily record of the amount of cotton ginned on each day but a record of the dates on which cotton received from any individual was ginned and the total amount ginned for the individual, as the process of ginning may continue for some days.

4. *Clause 5.*—The return required is a weekly and progressive return for the season, and we have amended the Bill to secure this. The weight to be shown is the average net weight of the bales pressed in that week. We have also made it clear that the owner is not obliged to submit a blank return when the factory is closed, if he has given due notice of the fact.

The amount of the fine has been reduced to Rs. 50, as the offence is no more serious than other offences for which the same penalty has been inflicted.

5. *Clause 7.*—We are of opinion that, where the owner has leased his factory and has nothing to do with the management thereof, the responsibility of maintaining and producing registers should be on the lessee during the period of the lease. New clause (7) accordingly throws the responsibility on the lessee and makes due provision for the transfer of the registers at the end of the lease. The owner is still responsible for producing the old registers.

6. *Clause 8.*—Similar provision has been made in the case of a transfer of ownership.

7. *Clause 9 (1).*—We have excluded small ginning factories from the operation of this clause.

8. *Clause 9 (2).*—We are of opinion that provision should be made to secure that necessary alterations should be made in a factory which has not been constructed or paved in accordance with the provisions of this clause and that the nature of the continuing offence should be made clear.

9. *Clause 11 (1).*—We have omitted from the Bill references to Inspectors of Factories under the Indian Factories Act, 1911, and have limited the power of sanctioning prosecutions to Magistrates with powers not less than those of a first-class Magistrate.

10. *Clause 13 (2).*—This clause has been omitted as we do not think that any penal provisions are required beyond those specified in the Bill.

Further minor drafting amendments have been made.

MINUTE OF DISSENT.

Clause 4 (2) makes the factory owner liable to punishment for removal of any bale from the factory without being duly marked—although he might in no way be responsible for such removal and even though it might have taken place without his knowledge or permission. I would therefore like the words "or allowed to be removed" to be inserted after the word "removed" and before the word "from" in the first line and the word "by" to be inserted after "(1)" and before the word "the" in the third line and the word "he" to be inserted after the word "factory" and before the word "shall" in the fourth line.

Clause 13 empowers the Local Government to make rules breaches of which will be offences under the Act. It is therefore necessary that this rule-making power of the Local Government should be subject to the control of the local legislature and particularly so because local

* Subject to minute of dissent.

conditions must be fully considered before the rules are final. The following proviso should therefore be added to the clause at the end of it :—

"Provided that no notification under this section shall be issued by the Local Government unless the rules have been approved by the legislative council of the province by a resolution."

M. V. ABHYANKAR.

7. In section 19 of the said Act, after the figure 5 the figure and letter "5-A" shall be inserted.

STATEMENT OF OBJECTS AND REASONS

The Agricultural Pests and Diseases Act, 1919, has been found by experience to be defective in that insufficient provision is made for the prevention of the spread of insect pests by the removal or destruction of growing plants. The amendments proposed simplify the procedure under the Act.
